

Week 06 : Programming Assignment 1

Due on 2025-03-06, 23:59 IST

Complete the code segment to print the following using the concept of extending the *Thread* class in Java:

-----OUTPUT-----

Thread is Running.

Private Test cases used for evaluation

Test Case 1

Input

Expected Output

Actual Output

Status

Thread is Running.

Thread is Running.

Passed

The due date for submitting this assignment has passed.

1 out of 1 tests passed.

You scored 100.0/100.

Assignment submitted on 2025-02-24, 23:29 IST

Your last recorded submission was :

```
1 class W06_P1 extends Thread {
2     public void run(){
3         System.out.print("Thread is Running.");
4     }
5     public static void main(String args[]){
6
7         // Creating object of thread class
8         W06_P1 thread=new W06_P1();
9
10        // Start the thread
11        thread.start();
12    }
13 }
```

Sample solutions (Provided by instructor)

```
1 public class W06_P1 extends Thread{
2     public void run(){
3         System.out.print("Thread is Running.");
4     }
5     public static void main(String args[]){
6
7         // Creating object of thread class
8         W06_P1 thread=new W06_P1();
9
10        // Start the thread
11        thread.start();
12    }
13 }
```
